## Foreword 序言

It is a great honor and pride to design a golf course in the beautiful Johor Bahru for the first time outside of China. Grateful to Country Garden Group and Chairman Yang for giving me this opportunity. It's also very fortunate that LGK Classic Course would become a local shining brand and the landmark of South Asia for businesses, friendships, fitness and lifestyle.

Adhering to the design concept of transforming and returning to mother nature, and in respect of the fundamental design practise of golf industry, this course is a breakthrough from the convention. The profile was ingeniously outlined and fine tuned on a piece of flat marsh land. Linking lakes not only provide the irrigation water, but also increase the site movement. Various mounds carved into fairways which have become an undulating, three-dimensional and scenic masterpiece. This tactful golf course is created distinctive, challenging and joyful.

In order to enhance player's impression on the course, individual name and play strategy were made for each hole based on its characteristics so that players are able to appreciate the unique features and strategy of holes at first glance, eventually have more playing fun and better scores.

Last but not least, I sincerely hope that Classic Course would bring you surprises and improvement in your game plus a memorable experience. You're always welcomed back!

第一次走出国门能有缘在美丽的新山市设计高尔夫球场，深感荣幸与自豪。感谢公司、杨主席给我这个机会，也非常幸运梁国坤经典球场能成为东南亚经商、会友、健身、时尚的聚居地与当地一张靓丽名片。

秉承改造自然、回归自然的设计理念，在尊重行业设计规范的基础上，打破循规蹈矩的设计思维，在一片平缓滩涂上，巧妙地勾勒出流线自然、变化万千的湖中湖，既解决了球场的灌溉用水，又增加动感；把球道地形雕琢成此起彼伏山中有山、立体感强、移步易景的经典作品，创造出与众不同、充满挑战而又不失乐趣的智慧型球场。

为了增加球手对球场的印象，根据各球道设计特点，逐洞题名，撰写攻略，让每一位球友第一时间解读球场特点与打法，提升打球乐趣又能取得好成绩。

最后，真诚希望经典球场让您收获惊喜，收获进步，度过愉快又难忘的时光，欢迎您常来挥杆。

Do not be distracted by the surrounding landscape. It is crucial to avoid the bunkers and water hazard on the right for the tee shot. You can either hit a longer shot and attack the green or if you lack the confidence, you may lay up on the right and chip on to the green to avoid the bunker before the green. The green is undulating.

不要被眼前的美景所吸引，开球杆最重要是避开右边的沙坑与水障碍，第二杆则能长莫短，如信心不足可先往右边击球，再小切上果岭，避免中埋伏，推杆前注意观察果岭地形的变化。

○ 521

A wide Par 5 with spacious landing area. It is not difficult to walk away with a par as long as you keep your ball in play toward the left side of this hole to avoid right side fairway bunkers and also out of bounds (OB) beyond the cart path on the right.

第一个五杆洞，两个落球点非常开阔，只要靠左击球，避开右边沙坑，打标准杆不难，但要留意右边越过球车道就OB。

This Par 3 hole requires firm and confident tee shot to land on the green in one. It is better to miss it long rather than short of the hole. Alternatively, lay up short on the right side of green, chip it on and one putt to save par.

自信的球手可直攻果岭，能长莫短；稳扎稳打型的球手，可靠果岭偏右击球。一切一推杆，也可能会有意想不到的惊喜。

A relatively straight Par 4 with wide landing area. Hit an additional 10 yards to keep away from the big bunker on the left on your approach shot.

可以勇敢的向开阔球道击出充满信心的一球，但小心第二杆需避开左边的大沙坑，才能直取果岭，预留10码长度上果岭较为保险。

● 325

A visually flat and slight dog leg left hole with hidden water hazard on the left side of around 100-140 yards off the tee. It is relatively an easy hole for advanced golfers but a challenge for shorter players who hits less than 150 yards off the tee. The green is undulating and well-guarded by two small bunkers at the back of the green.

看似一马平川的开阔视野，实则“暗藏杀机”，在发球台至球道约100~140码之间隐藏了水障碍。对职业选手而言，挑战起来难度并不大，但对业余选手来说，首杆落球点不足150码，就需量力而为。第二杆需适当偏左，并需留意果岭后边两个小沙坑。

A short Par 3 surrounded by water, with a landing point of only an island. A high trajectory approach on this hole will prevent hitting the rock wall or rolling off the green. Confidence dictates this hole.

四面环水的三杆短洞，唯一的落球点就是小岛范围。预留长10码距离吊高球上果岭，避免球击中石壁或路线偏离小岛。想要征服此洞，信心决定成败。

This Par 4 hole is guarded by water hazard on both sides and waste bunker extends from tee box to the front of the fairway. The fairway bunker right of the first landing area may be carried by stronger players.

沙洲从发球台延伸至球道草坪、两侧环水的四杆洞，首杆可以选择直击球道中心，担心击球距离不足的球手，可以避开落球点前方和右侧的小沙坑，多一杆上果岭或许效果更佳。

● 443

This Par 5 hole has three clusters of bunkers from tee to green and is reachable in two for stronger players. However, bunker before the green and the water hazard behind the green would also make you think twice before deciding to hit the green in two shots.

此五杆长洞从发球台至果岭，需飞越三组大沙坑。技术高超的球手，可以两杆直攻果岭。然而，果岭前的沙坑和果岭后的水障碍，始终在提醒球手们，一定要三思而后行。

美丽的四杆球洞，以森林城市酒店为背景，右发球区至果岭被水所围绕。首杆只要偏左击球，就可以避开最长的沙坑和水障碍。第二杆挥杆前，需留意果岭前后的沙坑。

The bunker left of the first landing area may be carried by stronger players. Bunker before the green is closer to the green than they are, creating a visual deception.

此四杆洞球道视野开阔，首杆向  
右击球即可避开左边的沙坑。球

This is a long Par 3 with huge sand trap from tee to front of green. The best place to miss the green will be right, offering a relatively easy chip shot.

最长的三杆洞。从高空鸟瞰，巨型沙坑俯卧在发球台至果岭间，静待着迎接球手们的挑战。保守型的球手，建议可以偏右击短球，一切一推较为保险。

This dogleg right Par 4 is guarded with water on both sides and clusters of bunkers along the fairway on the right. Slight left tee shot will leave you with a straight approach shot. Watch out of two small bunkers back of green.

此四杆洞球道两侧为湖泊，球道右侧至果岭间还有三组沙坑障碍。首杆建议偏左侧击球，第二杆挥杆前需留意果岭后方两个小沙坑陷阱。

**PAR 5**

● 529  
● 495  
○ 460

This Par 5 has double fairways, with water left of first fairway and right on the second. The bunkers right of the first landing area may be carried by stronger players offering a chance to reach the green in two. Alternatively, play safe and left of bunker to reach the green in three.

此五杆洞为双球道设计。第一球道左侧有水障碍，而第二球道水障碍位于右侧。自信心十足的球手，首杆可以偏左击球，避开第一球道右侧的拦路虎沙坑，第二杆即可直取果岭。击球距离不足的球手，首杆可以选择向左侧击球，分三杆上果岭较为明智。

○ 345  
● 312

This Par 4 dogleg right hole is guarded by water hazard on both sides and waste bunker extends from tee box to the front of the fairway. Out of bounds (OB) beyond the cart path on the right. A straight forward approach shot to the green.

如名所述，球道两侧均有水障碍，而沙洲从发球台一直延伸到球道。首杆建议靠左侧击球，以避开球道右侧的沙坑。此外，球道至果岭间地形此起彼伏，第二杆挥杆前需谨慎预判。

**PAR 4**

● 430  
● 405  
○ 373  
● 333

Slight dogleg right Par 4 hole. Do not be intimidated with the long teeth claw shaped bunker from tee to front of fairway. Best place to miss the green will be short right, offering a relatively easy chip shot. Approach shots left short of hole will be penalized by either the water hazard or bunker.

切勿被球道前的长齿爪型沙坑影响发挥，首杆开球越过即可。第二杆建议偏右击球，以避免果岭左侧前的巨型沙坑和水障碍。

**16**  
**PAR 4**

● 403

● 366

○ 332

● 298

This is a short potential drivable Par 4 if you are able to carry 280 yards from blue tee. A safe tee shot to the fairway on the right will be faced with a second shot over the water and strategically located bunkers front and back of green.

此四杆洞为双球道设计，建议采用保守型打法，首杆直击球道。第二杆可直取果岭，切记需留意果岭前后的沙坑陷阱。

PAR 3

 ● 149  
 ○ 136  
 ● 109

This hole is guarded by three small pot bunkers in front of this undulating green. The back left is guarded by another bunker while right until back of green is protected by water.

切勿被眼前别致的三杆短洞所迷惑，而忽略了该洞果岭偏小的挑战。果岭前后的沙坑又深又狠，后方还有水障碍。

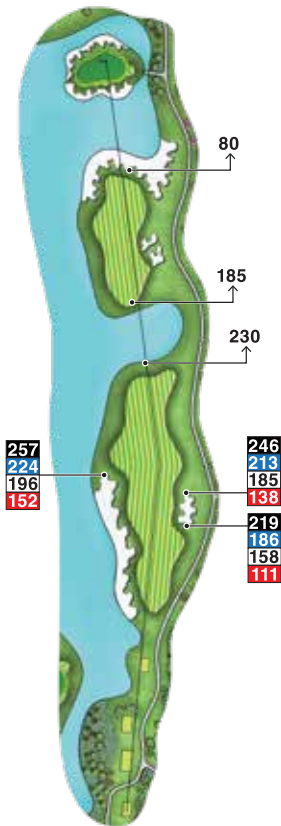

**18**  
**PAR 5**

● 580  
● 539  
○ 511  
● 466

This beautiful finishing Par 5 signature hole is unconventional and contentious, breaking conventional design standards. Reachable in two for strong and long hitters. This double fairway is separated by water and an approach to the unique island green. While many golfers are mesmerized by its beauty, the 18th hole is a challenging golf hole.

一个打破常规设计、引发球手热议的五杆洞，亦是设计师的经典收官之作。相比常规五杆洞，该洞在距离的设计上更花心思：设计师将三个落球点用水障碍隔开，每一杆距离都需要仔细考量、直面挑战，对击球距离有信心的球手可尝试两杆攻果岭，是一个机会与挑战并存、极具特色的收杆球洞。
